Pittsville
MARYLAND

Business Information

THESE PRICES are in effect for Spring 1940 season.

PRICES named in this Trade List apply only to orders placed by nurserymen, florists and dealers.

PACKING. All goods are packed in boxes or bales for which we charge sufficient to cover cost of material used.

CLAIMS, if any, must be made immediately upon receipt of goods, and if just, made satisfactory, but in no case are we responsible for more than the purchase price of the stock in question. We will not be responsible for failure to fill orders in full or for any damage or delay to stock after delivery to the transportation company.

TERMS: We offer the usual terms; net 30 days from date of shipment to those of known responsibility but must have satisfactory business references from others or remittance must accompany order. Those desiring stock shipped by express C. O. D. will please remit $\frac{1}{4}$ the amount of their purchase when ordering. Other terms by special arrangement.

NON-WARRANTY. We give no warranty expressed or implied, the purchaser assuming all risk and responsibility of transportation, growth, planting, life of stock or any other matter on any stock we sell. We send out good stock carefully grown and packed but cannot control conditions after it leaves our care. We exercise the greatest care to keep our stock true to name and are willing to replace on proper proof any stock that may prove otherwise, or refund the amount paid us for such stock, but it is mutually agreed that we shall not at any time be liable for any greater amount.

TELL US HOW TO SHIP. Whether by freight or express, and give railroad delivery if by freight. This may help in getting the stock to you with the least delay possible.

TIME OF SHIPMENT. We ship every week in the year with the possible exception of during the winter when bad weather makes it impossible, although this is very seldom. Of course, there is a regular season for shipping the different plants but if you want them out-of-season and are willing to take the risk of good delivery we will pack with the utmost care and get them off to you at most any time you want them.

PLAN TO VISIT OUR NURSERY

We will certainly be glad to have you come and see our stock for yourself. We have many items in too small lots to list. Among them there may be some that you are especially desirous of securing. If you are not familiar with the varieties we are offering we will send you a descriptive list of most of the stock offered herein, if you will ask for it.

We are located on the Eastern Shore of Maryland, about 100 miles directly south of Wilmington, Delaware. See the road map on fourth cover page.

MADE TO ORDER ALUMINUM LABELS

We will make from your list of varieties, Embossed Aluminum Labels, one-half inch wide at five cents each in any quantity desired. These labels will permanently identify your plants as they will last indefinitely.

TOUGH WATERPROOF PAPER LABELS

We can furnish a tough paper label slotted in one end at \$1.00 per thousand; \$7.50 per 10,000. Prices on printing on receipt of your list of requirements.

We Again Offer

ROOTED CUTTINGS

READY ABOUT JUNE 1ST

Last season, for the first time, we offered an extensive list of rooted cuttings, with much fear as to the final results. We sold more than we expected to and are now convinced it is a practical proposition. While we had a few "kicks" they were much less than we expected. The success, we believe, was due a good bit to the following words of caution.

Do Not Order Before Reading This

You cannot treat most of these cuttings just any old way and get a stand. They will most usually die if you do. But, if you are willing to coddle them a little you should get a good stand. We will send you the same kind of stock we use and we most always get a perfect stand, hardly ever lose any. We have our ground in a good mellow condition, cover them with lath shade (that is plastering lath spaced about the width of a lath apart and raised about 15 to 18 inches above the ground) as soon as planted and kept from drying out by overhead irrigation. Any system of shading and watering will do, if it is properly attended to. If you will take care of the plants we will be glad to have your order but if you cannot do this we had rather you would not send it to us. If they are not properly taken care of you will probably have a great loss and then every time you think of them you will think "There's a bunch of stuff from Tingle that went bad." Rooted Cuttings are all right if handled right but they are no good if not. So, if you are not willing to take the responsibility do not send your order.

These cuttings are in cold frames outside and in greenhouse beds. Most of the Azaleas are now rooted and can be shipped at any time when weather permits. Some of the other stock is now rooted and some is not. If you want the stock before about June 1st, send your list in and we can tell you what is ready.

ROOT GRAFTS

We are again offering a list of root grafts of stock that is very much in demand at the present time. We can furnish most of these varieties in thousand lots or more. Advise ordering early as they are made to order only. If you want other stock grafted ask us about it. Our prices will be reasonable.

FLOWERING CRAB

Price: \$7.50 per 100, \$60.00 per 1000

For list of varieties see page 37.

FLOWERING CHERRY

Price \$10.00 per 100

Amanogawa, Autumnalis, Fugenzo, Kwanzan, Mount Fuji, Naden, Shogetsu,; Single Weeping and Double Weeping.

RED OR PINK FLOWERING DOGWOOD

Price \$10.00 per 100

It seems impossible to supply the demand for Red Flowering Dogwood and would suggest placing your order early.

TOUGH PAPER LABELS

We can furnish a tough paper label slotted in one end one half inch wide and 7¼ inches long at \$1.00 per thousand, \$7.50 for 10,000, \$27.50 for 50,000. Printed to order on one side 1,000 for \$1.75, 10,000 for \$11.50, 50,000 for \$43.50.

AT IT THIRTY THREE YEARS

Let us take care of your Strawberry plant orders this season. We have had 33 years growing and packing experience with strawberries. Our strawberry plant business is handled entirely separate from our other nursery stock.

Asparagus

We are only growing the **MARY WASHINGTON** variety of Asparagus as it seems this is the one nearly every one wants to plant now. It is generally considered the best for growing, shipping and eating. We have some nice crowns this season and will appreciate your order.

DESCRIPTION OF STRAWBERRIES

AROMA. This is one of the old reliable midseason to late varieties and extensively planted in many sections.

BIG JOE. One of the midseason varieties that is very good where conditions suit and not worth much if they don't.

BLAKEMORE. This is hard to beat as an early berry in many sections. Always sells well and generally produces good crops. Very good the past season. Easy to grow.

CATSKILL. An introduction of the New York Experiment Station. Highly recommended. The largest and most productive of all the midseason varieties. Considered the best midseason variety. You will be safe in pushing Catskill especially for northern growers.

CHESAPEAKE. This is the finest dessert berry of the late varieties and will keep better and sell at higher prices than any other late berry we know of. The fruit is large and handsome and will stay so until the end of the fruiting season. Berries are a rich glossy red with bright yellow seed, have a large green cap and are very uniform size. Chesapeake is firm and will carry to the markets in the best of condition.

DORSETT. An introduction of the U. S. Department of Agriculture. Early, of most excellent flavor. Generally good except in few sections does not do so well.

DR. BURRILL. Seems to be a case of another name for Senator Dunlap. Good for the west and southwest.

FAIRFAX. Another U. S. Department of Agriculture introduction. A better later and of equally as good flavor as Dorsett. One of the best early-midseason varieties.

FROSTPROOF. A western variety of many good qualities among which is its great resistance to frost.

GANDY. For fifty years has been considered one of the very best real late varieties.

LUPTON. One would not likely grow this variety if he was going to eat the fruit himself as it does not begin to have the quality of some of the others but it is very attractive and shows up so well when it arrives on the market that it most always brings the top prices and this is what the commercial grower is interested in. Good grower, late, attractive and sells well.

PATHFINDER. A new variety originating at the New Jersey Agricultural Station. This berry has attracted much favorable attention among growers and others who have seen it in fruit. Especially recommended where Premier does well and is a few days later in fruiting. We suggest you push it.

PREMIER. For a good many years this has been the best plant seller of them all, hence, has been a profitable one for the berry grower. Early, almost frost resistant, always producing good crops, attractive, good grower, productive, medium to large berries, and if not too wet at picking time a good shipper but if there is a lack of sunshine the berries do not keep well. In some sections they will not plant anything else for a crop of early berries.

SENATOR DUNLAP. For many years this has been very heavily planted in the middle west and continues to be in heavy demand. Early midseason. Good grower.

FALL BEARERS. These berries are now so generally known that it is hardly necessary to say much about them. **Mastodon** and **Gem** are considered the best of all the Fall Bearers and are by far the best sellers. Both are large and fairly productive.

Blueberries

These blueberry plants are a source of superlatively fine fruit, but also are ornamental shrubs of rare beauty. They may well be used in association with their close relatives, laurel and rhododendron. In pleasant contrast to the rich, evergreen masses of the latter, blueberries give lightness, grace and color.

In spring the dainty new leaves of blueberries with their pinky, bronze tones are very lovely. Even more charming are the carmine-tipped buds and myriads of waxy, white flower bells. The berries, at first green flushed with pink on the sunny side then ripening to a lovely soft blue, are exceedingly beautiful till past midsummer. To no foliage does autumn bring a more glorious and lasting crimson. When the gorgeous leaves drop there remain all winter bright red twigs, knobby with the fat buds enfolding the promise of next spring's flowers.

Prices of Blueberry Plants Each	10	100	1000
6 to 12 in. 2 yr.	\$0.30	\$2.25	\$17.50
12 to 15 in. 3 yr.40	3.00	22.50
15 to 18 in. 3 yr.45	3.50	27.50
18 to 24 in. 4 yr.55	5.00	40.00
			375.00

There has developed an enormous demand for these plants, both for fruit and ornamental purposes. If you have not been getting some of this trade you are missing some good profits. They are easy to grow and handle. Put in a small stock and let us supply you; will send to you or direct to your customers under your tag.

Description of Varieties

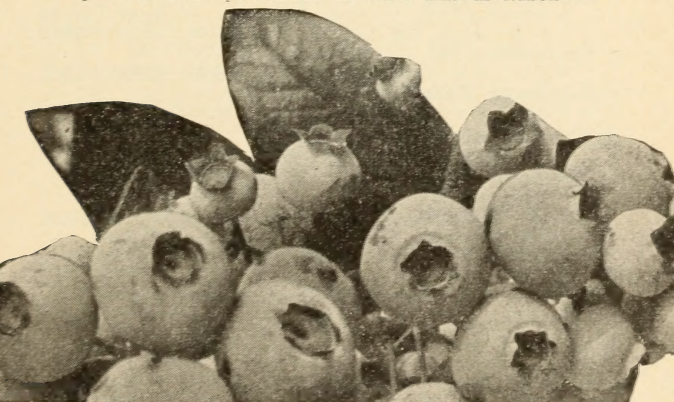

RUBEL. A vigorous, productive variety. Well developed bushes stand six feet high and the winter color of the young wood is a rich red. The large berries of fine color are usually ready to pick the first week in July.

CABOT. The earliest variety. Plants seldom exceed three feet in height and make a broad low bush. The color of the new growth in winter is a light red over olive. The large berries have a delicious sub-acid flavor.

RANCOCAS. The bush of slender, vigorous, upright habit rarely surpasses five feet in height. The winter twigs are a dark red. The berries are somewhat larger than those of Rubel and begin to ripen several days earlier.

CONCORD. The bush is of upright habit and at maturity exceeds six feet in height. The young growth is bright red in winter. The berries are large, frequently reaching three-quarters of an inch in diameter. They usually ripen a few days earlier than Rubel and are fine in flavor and appearance.

JERSEY. The bush is of vigorous habit and grows very large. The winter color of the young growth is a light red over golden brown. The berries are the largest of any here listed, light blue and ripen about the same time as Rubel.

Good Stock at Lower Prices

Last season we had the largest stock of small plants we had ever grown and really expected a large carry-over but it turned out that we cleaned up pretty well.

This season we have the largest and we believe the finest lining-out stock we have ever grown. We hope you can come and see if you will not agree with us that it is just about as good as can be grown.

We do not have as large or complete a stock of specimen sizes as we usually have. Some in fairly good supply and some entirely exhausted as you will see by our offerings.

Again we ask you to come and see it or if you cannot come send your order and leave it to us to please you.

Ornamental Stock

Quantities: 1 to 5 at the each rate, 5 or more at the 10 rate, 25 or more at the 100 rate, 250 or more at the 1000 rate.

All Lining-Out sizes are marked by an *. Sizes not so marked are classed as Specimen Stock.

TOUGH PAPER LABELS

We can furnish a tough paper label slotted in one end one-half inch wide and 7¼ inches long at \$1.00 per thousand, \$7.50 for 10,000 \$27.50 for 50,000. Printed to order on one side 1,000 for \$1.75 10,000 for \$11.50, 50,000 for \$43.50.

Aunt Mary's Sweet Corn

THE SWEET CORN SUPREME

This is the most wonderful Sweet Corn we have ever grown and one grower describes it as "the best sweet corn in the world."

Is of the most delicious flavor and keeps a long time before becoming too hard to use. In fact, usually requires artificial heat to cure it for seed purposes.

Aunt Mary's corn by its excellent quality, sweetness and flavor makes a stronger appeal to the corn-loving public than any other variety and that appeal continues long after you are tired of other sweet corns.

Price liberal size packets, 35c each, 3 for \$1.00 postpaid.

If, after growing this wonderful sweet corn, you are not entirely satisfied, we will refund every cent you paid for it.

NO JAPANESE BEETLES IN OUR NURSERY

After scouting and inspection several times during the past season by the Federal and State inspectors they have again classed our nursery as being free from the Japanese Beetle. Therefore you may send us your order without in any way running the risk of getting any beetles in a shipment from us. A Federal Permit and State Inspection Certificate certifying to the above will be attached to all shipments outside of the Japanese Beetle area.

Azaleas

Azaleas have been one of our specialties for many years. This season we are pleased to offer the largest stock we have ever grown, and at reduced prices, too. If you have not been getting your Azaleas—Lining-Out or Specimen—from us we wish you would try ours this season. We aim to please you with Azaleas as well as with our other stock.

We propagated 400,000 Azaleas this past season.

KURUME AZALEAS

The Kurume Azaleas have been known to America only about 20 years, but in that time they have made wonderful progress as hardly a garden but what has one or more varieties of this wonderful type of Azalea. They are also well adapted to forcing—thousands of them being sold for Mother's Day, Easter and Decoration Day. They are comparatively easy to grow and they make such a wonderful display that the demand is continually increasing. Many of the varieties are hardy out of doors as far north as Long Island. They are extremely floriferous, and in season the blossoms completely cover the flowers. The colors are of almost every hue and shade as you will find below.

Varieties with an asterisk * are the hose-in-hose or double type.

Each X means one transplanting.

Our 1-yr. field beds XX trans. have been grown in the greenhouse one year and in outside beds one year thus making them really two years old. The 2-yr. in field beds XX trans. are two years from greenhouse and thus three years old.

	Each	10	100	1000
AMOENA.* Flowers rosy purple, in dense masses. Hardy and early flowering. The foliage assumes a pleasing bronze tint in the fall and winter months.				

* 2 in. pot plants	\$1.00	\$6.00	\$50.00
* 1 yr. in field beds XX trans. .	1.25	10.00	90.00
* 2 yr. in field beds XX trans. .	1.75	15.00	135.00
6 to 8 in. B&B	\$0.45	3.50	30.00
8 to 10 in. B&B50	4.00	35.00
10 to 12 in. B&B60	5.00	45.00
12 to 15 in. B&B75	6.00	50.00
15 to 18 in. B&B85	7.50	65.00
18 to 21 in. B&B	1.15	10.00	90.00

AMOENA COCCINEA.* A new hardy Azalea, equally as hardy as Amoena while in coloring it is a brilliant fiery red. One authority thinks it will displace Hinodegiri as it becomes better known, both as an outdoor plant as well as for forcing.

* 2 in. pot plants	\$1.00	\$7.00
* 1 yr. in field beds XX trans. .	1.25	10.00
* 2 yr. in field beds XX trans. .	1.75	15.00
6 to 8 in. B&B	\$0.45	3.50
8 to 10 in. B&B60	5.00
10 to 12 in. B&B75	6.00
12 to 15 in. B&B85	7.00
15 to 18 in. B&B	1.00	9.00

AMOENA SUPERBA. Darker purple than Amoena, with a slightly larger flower. As hardy as Amoena but of more upright growth.

* 2 in. pot plants	\$1.25	\$10.00
* 2 yr. in field beds XX trans. .	\$0.30	2.75

APPLE BLOSSOM. White shaded pink, with light center. Leaves are glossy green.

* 2 in. pot plants	\$1.00	\$7.50
* 1 yr. in field beds XX trans. .	1.50	13.50

AVALANCHE. Pure white flowers of good size in large clusters. Foliage dark green and shiny.

* 2 in. pot plants	\$1.25	\$7.50
* 1 yr. in field beds XX trans. .	\$0.25	1.75

BENEGIRI. Flowers bright deep red. Compact grower with narrow leaves.

* 2 in. pot plants	\$1.00	\$7.50
* 1 yr. in field beds XX trans. .	1.50	12.50
* 2 yr. in field beds XX trans. .	2.00	17.50

	Each	10	100	1000
BOUQUET ROSE. Flowers of medium size, of a rose-pink shade, darker towards center. Bronze green foliage.				
* 2 in. pot plants		\$1.00	\$7.50	\$65.00
* 1 yr. in field beds XX trans. .		1.75	15.00	
* 2 yr. in field beds XX trans. .		2.25	20.00	
BRIDESMAID. Glowing salmon-pink flowers produced in large clusters. Small glossy green foliage.				
* 2 in. pot plants		\$1.00	\$7.50	\$65.00
* 1 yr. in field beds XX trans. .		1.50	12.50	112.50
* 2 yr. in field beds XX trans. .	\$0.25	2.00	16.00	150.00
6 to 8 in. B&B60	5.00	40.00	
8 to 10 in. B&B75	6.00	50.00	
10 to 12 in. B&B85	7.50	65.00	
12 to 15 in. B&B	1.00	9.00	80.00	
CARMINE PRINCE. Large size nose-in-nose carmine-red flowers freely produced. Compact, medium height.				
* 2 in. pot plants		\$1.25	\$10.00	
* 1 yr. in field beds XX trans. .		2.00		
CATTLEYA.* A delicately lilac-tinged white, shading at edges to mauve-pink.				
* 2 in. pot plants		\$1.25	\$10.00	\$65.00
* 1 yr. in field beds XX trans. .		2.00	17.50	
CHARLES ENCKE. Light pink, large flowers. A good forcer. Strong, healthy grower.				
* 2 in. pot plants		\$1.25	\$10.00	\$85.00
* 1 yr. in field beds XX trans. .		1.75	15.00	
6 to 8 in. B&B	\$0.75	6.00	50.00	
8 to 10 in. B&B	1.00	7.50		
CHEERFULNESS. Dark vermillion red, lighter center.				
* 2 in. pot plants		\$1.25	\$10.00	
* 1 yr. in field beds XX trans. .		2.00	17.50	
CHERRY BLOSSOM.* Dainty light pink blossoms, shading lighter at center. Large, dark green foliage.				
* 2 in. pot plants		\$1.25	\$10.00	
* 1 yr. in field beds XX trans. .		1.75	15.00	
* 2 yr. in field beds XX trans. .	\$0.25	2.00	17.50	
CHRISTMAS CHEER.* The blossoms are brilliant bright red, the foliage is very dark green and compact. The earliest of the red Kurumes.				
* 2 in. pot plants		\$1.25	\$10.00	
* 1 yr. in field beds XX trans. .		1.75	15.00	
CORAL BELLS.* Beautiful shell-pink shading somewhat deeper at center. Free flowering and dainty. Small foliage. An early bloomer.				
* 2 in. pot plants		\$1.00	\$7.50	\$70.00
* 1 yr. in field beds XX trans. .		1.50	12.50	112.50
* 2 yr. in field beds XX trans. .		2.00	17.50	150.00
DAPHNE. Large lavender flowers, with light center.				
* 2 in. pot plants		\$1.00	\$7.50	
* 1 yr. in field beds XX trans. .		1.50	12.50	
* 2 yr. in field beds XX trans. .		2.00	17.50	
DAYBREAK. Pure light pink flowers in dense clusters. Free flowering. Beautiful foliage.				
* 2 in. pot plants		\$1.00	\$8.00	
* 1 yr. in field beds XX trans. .		1.50	12.50	
* 2 yr. in field beds XX trans. .		2.00	17.50	
6 to 8 in. B&B	\$0.65	5.00	40.00	
8 to 10 in. B&B75	6.50	60.00	
DELICATISSIMA. White, tinged and edged with lilac.				
* 2 in. pot plants		\$1.00	\$7.50	
* 1 yr. in field beds XX trans. .		1.75	15.00	
* 2 yr. in field beds XX trans. .	\$0.30	2.25		
6 to 8 in. B&B65	5.00		
EXQUISITE. A beautiful salmon color.				
* 2 in. pot plants		\$1.25	\$10.00	
* 1 yr. in field beds XX trans. .		1.75	15.00	
FLAME. Bright madder-red flowers, suffused with copper. Beautiful. One of the best Kurumes.				
* 2 in. pot plants		\$1.00	\$7.00	\$65.00
* 1 yr. in field beds XX trans. .		1.50	12.50	112.50
* 2 yr. in field beds XX trans. .	\$0.25	2.00	17.50	165.00
8 to 10 in. B&B75	6.50		
10 to 12 in. B&B90	8.00		
12 to 15 in. B&B	1.00	9.00	80.00	
15 to 18 in. B&B	1.25	11.00		
HELEN DAWSON. Rosy lilac. Winner of a Silver Medal.				
* 1 yr. in field beds XX trans. .		\$1.25	\$15.00	
HEXE* (Firefly). Flowers of large size, crimson-red in color. A compact grower. Good for forcing.				
* 2 in. pot plants		\$1.00	\$7.50	
* 1 yr. in field beds XX trans. .		1.50	12.50	
6 to 8 in. B&B	\$0.50	4.50		

EMBOSSSED ALUMINUM LABELS

We will make, from your list of varieties, Embossed Aluminum labels, one-half inch wide at five cents each in any quantity desired. These labels will permanently identify your plants.

	Each	10	100	1000
HINODEGIRI. Flowers brilliant scarlet, foliage rounded and deep green. The flowers are produced so profusely as to completely cover the plant. Probably the most popular Azalea grown. We have well over one hundred thousand of this variety alone.				
* Rooted Cuttings			\$2.50	\$20.00
* 2 in. pot plants	\$1.00	6.50	60.00	
* 1 yr. in field beds XX trans. .	1.25	11.00	100.00	
* 2 yr. in field beds XX trans. .	\$0.25	1.75	16.00	150.00
6 to 8 in. B&B50	4.00	30.00	285.00
8 to 10 in. B&B65	5.50	45.00	425.00
10 to 12 in. B&B85	7.00	60.00	
12 to 15 in. B&B	1.10	10.00	85.00	
HINOMAYO. Flowers a beautiful soft pink. Resembles Hinodegiri in habit of growth but leaves are smaller in size and a lighter green. We consider this one of the best pinks.				
* 2 in. pot plants	\$1.00	\$6.50	\$60.00	
* 1 yr. in field beds XX trans. .	1.25	11.00	100.00	
* 2 yr. in field beds XX trans. .	\$0.25	1.75	16.00	150.00
6 to 8 in. B&B50	4.00	35.00	
8 to 10 in. B&B65	5.50	45.00	
10 to 12 in. B&B85	7.00	55.00	
HORTENSE. A beautiful soft pink flower.				
* 2 in. pot plants	\$1.00	\$7.50		
* 1 yr. in field beds XX trans. .	1.75	15.00		
* 2 yr. in field beds XX trans. .	2.00	17.50		
KIMNAZOL. Single, deep red flowers, 1 1/4 inches in diameter; petals and leaves extremely narrow. Grows broad and bushy.				
* 2 in. pot plants	\$1.25	\$10.00		
* 1 yr. in field beds XX trans. .	1.75	15.00		
* 2 yr. in field beds XX trans. .	2.00	17.50		
LAVENDER QUEEN. A fine shade of light lavender. Very free flowering. Large dark green leaves.				
* 2 in. pot plants	\$1.00	\$7.50		
* 1 yr. in field beds XX trans. .	1.50	12.50		
* 2 yr. in field beds XX trans. .	1.75	15.00		
LORRAINE. Semi-double, deep rose. Large flowers. This is a good forcing variety.				
* 2 in. pot plants	\$1.00	\$7.50		
* 1 yr. in field beds XX trans. .	1.75	15.00		
J. T. LOVETT. A gorgeous late blooming variety, producing vast quantities of extra large salmon-red flowers. For a late variety we recommend this one.				
* 2 in. pot plants	\$1.00	\$6.50	\$60.00

6 to 8 in. B&B60	5.00		
8 to 10 in. B&B75	6.00	50.00	
10 to 12 in. B&B85	7.50	65.00	
12 to 15 in. B&B	1.00	9.00		

CYPRESS LATH SHADE

We have had so many inquiries as to where Lath Shades for covering small lining-out stock, seedlings, etc., could be secured and the price of same that we have decided to offer it to the trade. This is made with Cypress laths 4 feet long, 1½ inches wide and spaced about the width of a lath apart, woven together with three double strands of galvanized wire, thus giving half shade. Made in forty feet lengths at 8 cents per running foot.

NEW U. S. D. A. AZALEAS

A group of new varieties of this wonderful June-blooming hardy evergreen Azalea released by the U. S. Department of Agriculture. Most of these were collected by the Department at the Agricultural College, Imperial University Komaba, in Tokyo, Japan. They have been tried out by the U. S. Department of Agriculture staff and other interested growers and have been selected as being worthy of introduction in this country. We were one of the original growers selected to propagate these for the trade.

In ordering these Azaleas please use the number following the name, this will insure getting the variety wanted.

Rideway's color chart used as a guide to colors.

Our 1-yr. field beds XX trans. have been grown in the greenhouse one year and in outside beds one year thus making them really two years old. The 2-yr. in field beds XX trans. are two years from greenhouse and thus three years old.

	Each	10	100	1000
BENI KIRISHIMA (No. 77113 R. Indicum). A semi-double form; the flowers are old-rose to Eugenia-pink.				
* 1 yr. in field beds XX trans. .		\$1.25	\$10.00	
* 2 yr. in field beds XX trans. .	\$.025	1.75	15.00	\$135.00

PLAN TO VISIT OUR NURSERY

We will certainly be glad to have you come and see our stock for yourself. We have many items in too small lots to list. We may have just what you have been looking for.

SHIPPING TAGS

Made from good quality, tough, waterproof stock. Size 3½x6¼ inches. The standard size tag most used by nurseries. There is room for your Inspection Certificate on the address side. Printed to your order at the following prices.

500	1,000	2,000	5,000	10,000
\$3.50	\$5.50	\$10.50	\$24.50	\$45.00

We can also furnish any other size or quality tag at very reasonable prices. Ask for quotations.

KAEMPFER HYBRID AZALEAS

In these new Kaempferi Hybrids—the result of crossing Kaempferi and Malvatica—there has been obtained the hardiest type of evergreen Azalea, with a good range of form and color in the flowers so far achieved. Several years tests have demonstrated that these new Hybrids are just as hardy as Kaempferi, until now the hardiest of the evergreen sorts.

	Each	10	100	1000
ALICE. A large brilliant orange-red flower.				
* 1 yr. in field beds XX trans. .	\$1.75			
* 2 yr. in field beds XX trans. .	\$0.35	2.50

15 to 18 in. B&B	1.50	13.50		
VASEYI (Pinkshell Azalea). Delicate white. Pink or deep rose-colored flowers appear in early May before the foliage. Free bloomer.				
* 1 yr. 2 to 4 in. S. trans.		\$1.00	\$6.00	
VISCOSA (Swamp Honeysuckle). Late blooming. Grows in low swampy soils. Flowers are pure white sometimes flushed with pink.				
15 to 18 in. B&B	\$0.75	\$6.00		

	Each	10	100	1000
YODOGAWA. Purplish-pink, brilliant double flowers in early spring. A semi-evergreen Japanese Azalea.				
* 1 yr. in field beds XX trans. .		\$1.75	\$15.00	
8 to 10 in. B&B	\$0.60	5.00		
10 to 12 in. B&B75	6.50		
12 to 15 in. B&B	1.00	9.00		

ARNOLDIANA AZALEAS

In 1914, the late Jackson Dawson, then superintendent of the Arnold Arboretum, at Boston, Mass., created a splendid new type of hardy Azalea by crossing Azalea Kaempferi and Azalea Amoena. Of the seedlings thus produced a considerable number of them were grown at Boston from their infancy until flowering age, when the following ones of unusual beauty and vigor of growth were selected.

	Each	10	100	1000
BRIARCLIFFE. A deep rich reddish-pink, identical in color with the well known rose of that name.				
* 2 in. pot plants		\$1.75	\$15.00	
* 1 yr. in field beds XX trans. .	\$0.35	2.50	20.00	
CARDINALIS. A dark cardinal red. This variety has the characteristic of making new leaf growth with the flower.				
* 2 in. pot plants		\$1.75	\$15.00	
* 1 yr. in field beds XX trans. .	\$0.35	2.50	20.00	
DEXTER'S PINK. A bright, glistening pink, and a very good grower. We especially like this one.				
* 1 yr. in field beds XX trans. .	\$0.35	\$2.50	\$20.00	
EARLY DAWN. A beautiful soft radiant pink, fading silvery.				
* 2 in. pot plants		\$1.75	\$15.00	
* 1 yr. in field beds XX trans. .	\$0.35	2.50	20.00	
8 to 10 in. B&B65	5.00		
MELLO-GLO. A charming cerise-pink, with golden suffusion and distinct base of corolla.				
* 2 in. pot plants		\$1.75	\$15.00	\$125.00
* 1 yr. in field beds XX trans. .	\$0.35	2.50	20.00	175.00
MOSSIEANA. A rich orchid-lavender, and the strongest grower of the group.				
* 2 in. pot plants		\$1.75	\$15.00	\$125.00

* 1 yr. in field beds XX trans. .	\$0.25	\$2.00	\$15.00	\$135.00
* 2 yr. in field beds XX trans. .	.35	3.00	25.00	200.00

AZALEAS AND CAMELLIAS By H. H. Hume

Interest in Azaleas and Rhododendrons is greatly increasing. Until now, little information on varieties, care and culture of these plants has been available. Mr. Hume accurately and thoroughly describes the varieties best suited for various uses and discusses questions on culture, such as soils, fertilization, planting, propagating, and general care, indoors and out. He has taken special care to describe accurately the several groups and varieties, and his suggestions on the use and culture are very practical. If you are growing Azaleas and Rhododendrons you will find this book much help. While the book is titled Azaleas and Camellias it applies equally to Rhododendrons. \$1.50.

EMBOSSSED ALUMINUM LABELS

We will make, from your list of varieties, Embossed Aluminum Labels, one-half inch wide at five cents each in any quantity desired. These labels will permanently identify your plants.

Let us take care of your Strawberry plant orders this season. We have had 31 years growing and packing experience with strawberries. Our strawberry plant business is handled entirely separate from our other nursery stock.

SHIPPING TAGS

Made from good quality, tough, waterproof stock. Size 3½x6¼ inches. The standard size tag most used by nurseries. There is room for your Inspection Certificate on the address side. Printed to your order at the following prices.

500	1,000	2,000	5,000	10,000
\$3.50	\$5.50	\$10.50	\$24.50	\$45.00

We can also furnish any other size or quality tag at very reasonable prices. Ask for quotations.

The above illustrates a typical plant of *Berberis julianae* and *Nana*. We find this plant very useful and it is one of our best sellers. Line out some this spring and you will soon have plants like these.

Daphne Cneorum

A Hardy Plant Novelty

Each tip is budded.

When in bloom its fragrance sells it. Its small size and low price permits the customer to take it along. An ideal cash and carry item. Our improved strain blooms in May and again in August until frost.

Plants are solid, compact and symmetrical. Each plant is loaded with bloom buds. A neat novelty for your Easter trade. The profusion of soft pink flowers attracts favorable attention and the strong sweet fragrance clinches the sale.

Requires a cool house, little room and only eight weeks to force into full bloom. Can be shipped safely throughout the winter months by freight without damage.

TROWBRIDGE GRAFTING WAX

Probably the best known Grafting Wax on the market. It was formulated about 86 years ago and consists of high grade Gum Rosin, Beeswax and Tallow. Extreme care is exercised in blending these ingredients in order that Trowbridge Grafting Wax may be possessed of the most even consistency and elasticity of any.

Trowbridge Grafting Wax is preferred by most nurserymen and orchardists since it may be used either by the warmth of the hands or melting in a suitable melting pot. When used by the hands, one should grease their hands well when using it. When used by melting, the wax is applied with a small brush.

It is used for grafting, budding, top working, etc., of all kinds of fruit, ornamental trees, shrubs and vines. It is unexcelled for use in painting cuts, bruises and after trimming.

Price 50c per pound, 10 lbs. or more at 40c per pound.

Ilex--Holly

We consider the Holly one of the very best ornamental trees or shrubs. Nothing is prettier than one of our American Hollies with great clusters of bright red berries and dark green leaves shining above the snow in winter. The nurseryman who will grow a collection of Hollies to a specimen size will have something he can sell whether times are good or whether they are bad. There is always a demand for them, and there will be as long as any other plants will sell. We believe there is money in growing them and will increase our stocks as fast as we can.

	Each	10	100	1000
ILEX AQUIFOLIUM (English Holly). This is not as hardy as the American Holly (<i>Ilex Opaca</i>) but can safely be planted from New Jersey southward. The foliage is a bright glistening green and the berries are larger than the American. A very beautiful Holly.

3 to 4 ft. B&B	1.10	10.00	85.00	
ILEX OPACA ARDEN (Arden Holly). An American Holly originating north of Wilmington, Del. and selected for its good growing habit, handsome and wonderful fruiting qualities.				
1 yr. grafted plants	\$0.50	\$4.50	\$40.00	\$350.00
ILEX OPACA CROONENBURG. We offered this plant last spring for the first time and it met such demand that our is still not large, hence only offering in the 2 to 3 ft. size at \$4.50 each.				
In a mature plant, the leaves are $2\frac{1}{2}$ to $3\frac{1}{4}$ inches long and 2 to $2\frac{1}{2}$ inches wide, having about 7 to 9 spines of a very dark green, not having the usual yellowish tint found in the most familiar American Hollies. It bears berries from cuttings almost continuously, as three year old plants this year had branches weighed down with the growth. In a field of several thousand you could not see one plant without berries.				
ILEX OPACA EAST PALATKA. A cross of Dahoon and Opaca. Its evergreen leaves are practically spineless. The deep red berries are borne in heavy clusters, ripen a month or so before Opaca and persist on the tree until spring. A beautiful addition to the Holly family.				
18 to 24 in.	\$0.85	\$7.50		
ILEX OPACA FEMINA. A berry-bearing form of the American Holly. Cuttings selected from berry-bearing trees.				
3 in. pot plants	\$0.35	\$3.00	\$25.00	\$225.00
ILEX OPACA HOWARD. A named berry-bearing form of American Holly. Small glossy leaves, with an abundance of dark red berries in clusters.				
3 in. pot plants	\$0.35	\$3.00	\$25.00	\$225.00
18 to 24 in. B&B75	6.50	60.00	

New Wonder

ROOTONE Is Best For Cuttings

Because—

LOW COST—1/30 to 1/50 of a cent per cutting.

SIMPLICITY—No skill is needed to apply ROOTONE. No measurements, no vials, no elaborate charts to follow, or clock-watching are needed. Just dip and plant.

SPEED OF ROOTING—The time for rooting of cuttings is cut by ROOTONE treatment to anywhere from one-half to one-tenth of the time required without treatment.

SURENESS OF ROOTING—Cuttings that root with difficulty such as holly, magnolia, arborvitae, lilac and dogwood will respond in greatly increased percentages and in much shorter time.

A two ounce jar will treat up to 3,000 cuttings; one pound will treat up to 30,000 cuttings.

Azalea

2 WEEKS QUICKER ROOTING

On our check plots of Azalea Hinodegiri this summer we could pot the rooted cuttings a little over 2 weeks earlier where we used ROOTONE than where we did not. This meant a lot as it helped us get two crops of rooted cuttings in one season.

CHERRY HILL NURSERIES, West Newbury, Massachusetts, says: "We have your letter of November 30th in regard to our experience with Rootone. We have used this on a variety of material and have found that in most cases it produces better root growth than the check material which was put in at the same time untreated. The powder is much easier to use than liquid form. We have found it very satisfactory for use on Daphne cneorum and all that class of plants which might give a fair stand but which gives a larger percentage of cuttings striking when Rootone is used."

No solution or soaking treatment is necessary. Just dip the base of the cutting in the dry powder and set in the propagating bed or cold frame.

Just Dust and

No Waiting

Root

PATENTED

The Plant

ROOTONE is a natural plant hormone, supplying the plant with what Nature provides.

ROOTONE treatment proves the rooting of cuttings, germination from seed, resulting in earlier production.

2 oz. Jar \$1.00

A two ounce jar will treat up to 3,000 cuttings; one pound will treat up to 30,000 cuttings.

TRANSPLANT

The Vitamin Hormone

When seedlings are transplanted, they are aged to some extent and temporarily checked. The addition of Vitamin B-1 and Vitamin B complex, established in research plant physiologists.

These chemical hormones are combined with ROOTONE to enable them to grow themselves more rapidly.

Thus a treatment with ROOTONE will stimulate the formation of new plants, without risk of interrupting the growth of existing plants.

3 Oz. Can \$1.00

WHAT ABOUT

Vitamin B-1 growth. Plants grow better when they are fed to them. The addition of enough B-1, TRANSPLANTANT, is effective because it is a potent stimulating agent. TRANSPLANTANT is a vitamin hormone stimulant in general.

For SEEDS And BULBS

Seeds of all kinds will germinate faster and in higher percentage if dusted with ROOTONE before planting. Pansies, primula, delphinium and petunias respond especially to ROOTONE. Bulbs, particularly gladiolus and lilies, break dormancy much more uniformly, and develop more roots with ROOTONE pre-treatment. The resulting plants grow faster and flower earlier.

Chrysanthemum

We recommend ROOTONE because we have found it of much help to us in rooting cuttings both in saving of time and in increased roots to the cutting. We use it on all the cuttings we put in except the ones for checking for comparison of results. We know it pays us both in better roots and time saved in cutting beds.

GERBING'S AZALEA GARDENS, Fernandina, Florida, says: "Replying to your favor of the 30th, certainly you may use my letter or any part of it for Rootone advertising. Since writing you last year what I thought of Rootone I have had another year to try it out, I would not want to be without it again. It has made sure my propagation of Camellias which before using Rootone was always a gamble. This year I have rooted more than 30,000 Camellias with less than \$10.00 worth of Rootone. That is certainly economical enough. Thanks for putting out such a fine trouble free product."

Special Strength

For those who want a stronger powder for use on woody cuttings, we have "ROOTONE No. 10." This is priced at \$10.00 per pound and is made to order. It produces more roots on such cuttings as hemlock, spruce and azalea mollis.

A booklet telling more about ROOTONE and TRANSPLANTONE and how to use them sent on request.

UNIVERSITY OF MARYLAND

State Horticultural Department—Certificate of Nursery Inspection

This is to Certify, that we have examined the nursery stock of the Tingle Nursery Co., growing in their nurseries at Pittsville, County of Wicomico, State of Maryland, in accordance with the laws of Maryland, 1898, Chapter 289, Section 58, and that said nurseries and premises are apparently free, so far as can be determined by inspection, from the San Jose Scale, Peach Yellows, Pear Blight and other dangerously injurious insect pests and plant diseases.

ERNEST N. CORY, State Entomologist.

C. E. TEMPLE, State Pathologist.

G. S. LANGFORD, Chief Inspector.

College Park, Md.,

New Waterlily Magnolia

STELLATA WATERLILY. This is the new Magnolia we sent out last season without a name. It is now to be called "Water Lily Magnolia" on account of its resemblance to a waterlily and its sweet fragrance.

We sent out a good many of these plants last spring and those who have seen it in bloom are very enthusiastic about it. We believe if you are interested in Magnolias you should try one or more plants so as to see for yourself just how wonderful it is.

TYPE OF GROWTH: This plant grows in a pyramidal shape, more bushy and twiggy than the M. Stellata. It is a faster growing plant than the M. Stellata, but not as rapid as the Soulangeana, the branches being much more slender. It bears flowers in great profusion.

TIME OF BLOOMING: Approximately two to four weeks later than the Stellata, not having been affected by freeze or frost.

DESCRIPTION OF FLOWERS: Flowers are well placed on ends of branchlets, measuring from 4½ to 6 inches across. The flowers consist of three to five layers, running from twenty to thirty-two petals which have more character than the Stellata and stand in a more upright position.

COLOR OF FLOWERS: Blush pink, buds flesh pink. This magnolia is lightly darker than the M. Stellata Rosea, but does not have the purplish tint of the Stellata Rosea.

Price, Heavy 3 ft. plants \$3.50 each.
1 yr. transplanted grafts \$1.50 each.

MAHONIA Repens (Spreading Mahonia)

2 in. pot plants \$1.00 7.50

Rhododendrons

Most everybody agrees that Rhododendrons are among the most showy of all flowering plants, and most everybody would also like to grow some but the price has always been a great drawback to quantity planting. We believe you will find our prices low enough so that you can resell them at a fair price and still make a good profit. This collection is among the very best of the hardy hybrid varieties; all good growing and good flowering kinds. Push them a little and see how your sales increase.

Send us a trial order for Rhododendrons. We know you will like what we send you.

12 to 15 in. B&B\$1.25 \$11.00 \$100.00

ALBUM ELEGANS. A rapid growing tall variety recommended for backgrounds. Buds and flowers are blush fading to white.

CATAWBIENSE ALBUM. A pure white of good compact habit. Produces an abundance of buds.

CATAWBIENSE GRANDIFLORUM. A rosy-lilac hybrid recommended for mass planting as it buds heavily, is hardy and is particularly resistant to disease.

DR. H. C. DRESSELHUYS. A popular tall growing aniline red that is hardy and easily forced. Very large flower.

IGNATIUS SARGENT. A rapid, vigorous growing light red.

MRS. C. S. SARGENT. A hardy, deep rose-pink of compact habit. Splendid for mass planting.

ROSEUM ELEGANS. In habit, this is the best of all hybrids as every plant is a natural heavily budded, compact globe. Its lavender-pink flowers are easily forced, and it is one of the hardier ones.

Send list for prices on larger sizes.

RHODODENDRONS SPECIES

MAXIMUM (Rosebay Rhododendron). The white or pink flowers and late blooming habit make this species invaluable.

6 to 12 in. \$1.50 \$12.50

12 to 15 in. \$0.25 1.75 15.00

MINUS (Piedmont Rhododendron). A loose growing shrub with purplish-rose flowers blooming in late June. Very good for woodland planting.

18 to 24 in. B&B\$0.75 \$6.50 \$50.00

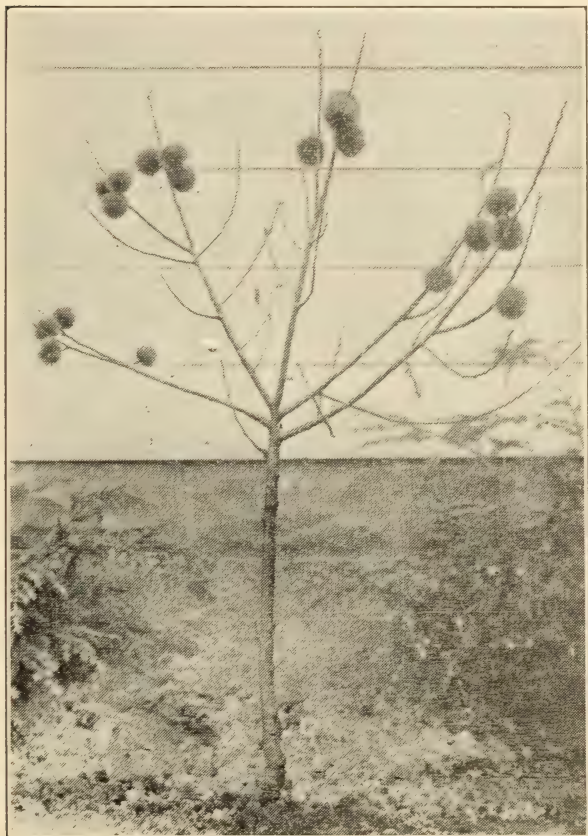

24 to 30 in. B&B 1.00 8.50 75.00

PONTICUM. Evergreen. Leaves to 6 in. long; flowers purple spotted with yellow.

12 to 15 in.\$0.60 \$5.00

PROPAGATION OF PLANTS

By M. G. Kains and L. M. McQuesten

**A Complete Guide for Professional and Amateur Growers
Of Plants by Seeds, Layers, Grafting and Budding, with
Chapters on Nursery and Greenhouse Management**

Every plant propagator and experimenter with plant propagation needs this book. Its authoritative treatment of the subject will give the reader confidence that he may base his work on the principles laid down and the practices recommended. Its cogent but simply written text leaves no doubt as to the means and media to adopt. Its abundant detailed halftone and line drawing illustrations so clearly portray the successive steps in the various methods and practices that even the beginner will find it more difficult to err than to follow the directions. Beautifully printed and bound and illustrated with 350 drawings and photographs, which were especially assembled for this volume. These are extremely helpful to an understanding of the text. 572 pages, 6x9, **\$3.50.**

Taxus--Yew

It is only in the past few years that nurserymen in the United States have begun to really appreciate and grow the Yew. In England there are Yews more than a hundred years old, but unfortunately the English Yew (*Taxus Baccata*) is not reliably hardy in the north and many do not realize that the Japanese and many forms of *Media* are perfectly hardy in and around Boston, and the Japanese even in northern New England.

They are not so particular as to character of soil excepting it should not be too wet, but they do appreciate a plenty of good plant food. They are immune to many plant diseases and insects so destructive to many other evergreens.

The Yew in its many species and forms can well be used in most all places where any other evergreen will do well.

We honestly believe you will do well to plant and grow on some of these Yews.

	Each	10	100	1000
TAXUS BACCATA (English Yew). Widely planted in English churchyards. A good ornament. Hardy as far north as New York City. Upright, dark green foliage. Very good for the South and where it is hardy.

------------------------	--------	-------	--	--

24 to 30 in. B&B	1.50	13.50		
------------------------	------	-------	--	--

TAXUS BACCATA HIBERNICA. A strictly fastigate form, with stout crowded upright branches and branchlets; leaves radially arranged around the branches, dark glossy green, more obtuse than in the type. One of the most desirable evergreens of columnar habit for formal gardens. Do not recommend planting north of Philadelphia, although it is hardy on Long Island.

* 3 to 4 in. trans.	\$1.25	\$10.00		
--------------------------	--------	---------	--	--

9 to 12 in. B&B	\$0.75	6.00	50.00

------------------------	--------	------	--	--

We have a descriptive list of most of the items listed herein which will be sent on request.

	Each	10	100	1000
TAXUS BACCATA WASHINGTONI (Washington Yew). A form of wide-spreading habit with leaves golden-yellow, particularly on the under side.				
* 4 to 6 in. trans.		\$1.00	\$8.00	
* 6 to 8 in. trans.		1.25	10.00	
* 8 to 10 in. trans.		1.50	12.50	
* 10 to 12 in. trans.		1.75	15.00	
* 12 to 15 in. trans.		2.00	17.50	
12 to 15 in. B&B	\$0.85	7.50		
TAXUS CANADENSIS (Canadian Yew). Low shrub usually diffuse and straggling but occasionally ascending and up to 6 feet tall. The hardiest of the Yews, but less handsome than the other species, one of the chief drawbacks being the reddish tinge the foliage assumes in winter.				
* 4 to 6 in. trans.		\$1.25	\$10.00	
TAXUS CANADENSIS STRICTA (Dwarf Hedge Yew). The most satisfactory evergreen for dwarf edging hedges in severe New England climate. The best substitute for Dwarf Boxwood. Hardy, really dwarf, fine texture, dark, easily grown, shears perfectly, thoroughly tested for past fifteen years. Also excellent for use in general plantings of dwarf evergreens.				
Rooted Cuttings			\$6.00	\$55.00
TAXUS CUSPIDATA (Japanese Yew). For any and every purpose in which evergreens are required the Japanese Yew can be recommended. Perfectly hardy in New England and Ontario, immune from most diseases and pests. Accommodating to an extraordinary degree, withstanding shade or full sunshine, dark green at all seasons of the year. Small wonder this plant has been acclaimed "Japan's greatest gift to the gardens of America." Under this heading we are offering the spreading or wide growing type which grows as broad or broader than tall.				
* 4 to 6 in. trans.		\$1.00	\$6.50	\$60.00
* 6 to 8 in. trans.		1.10	8.50	75.00
* 8 to 10 in. trans.		1.25	11.00	100.00

18 to 24 in. B&B	1.25	11.00	100.00	
24 to 30 in. B&B	1.75	16.50		
TAXUS CUSPIDATA Densa (Compact Dwarf Japanese Yew). Low form making a dense, sometimes hemispherical bush with ascending branchlets. One of the most handsome of all dwarf evergreens.				
* 4 to 6 in. trans.		\$1.50	\$12.50	
TAXUS CUSPIDATA NANA (Dwarf Japanese Yew). A shrubby form with spreading branches closely clothed with short branchlets; leaves somewhat shorter and duller than the type; slow growing, rather compact. Often offered as <i>Taxus Brevifolia</i> .				
* 4 to 6 in. trans.		\$1.25	\$10.00	\$90.00
* 6 to 8 in. trans.		1.50	12.50	
TAXUS CUSPIDATA NANA ERECTA . Same type foliage as above but grows more erect.				
* 4 to 6 in. trans.		\$1.25	\$10.00	\$90.00

RED STAR BRAND RAFFIA

Best quality "Red Star" brand. For use in tying plants, wrapping buds, etc. You will like this grade.

In lots of 5 lbs.	per pound	30c
In lots of 25 lbs.	per pound	25c
In lots of 100 lbs.	per pound	22c

Quantities: 1 to 5 at the each rate, 5 or more at the 10 rate, 25 or more at the 100 rate, 250 or more at the 1000 rate.

Each 10 100 1000

TAXUS CUSPIDATA NANA FEMINA. A heavy berry-bearing type of the dwarf Yew with good foliage and good growing habit. Your customers will want this when they see it in fruit.

* 4 to 6 in. trans.	\$1.25	\$10.00	\$90.00
* 6 to 8 in. trans.	1.50	12.50	115.00
* 8 to 10 in. trans.	1.65	13.50	125.00
* 10 to 12 in. trans.	1.75	15.00	140.00
* 12 to 15 in. trans.	2.00	17.50	165.00

TAXUS CUSPIDATA OVATA. Broad, upright in habit, large dark leaf and is unusually attractive throughout the year, especially in fall. Very heavy producer of red fruit.

* 4 to 6 in. trans.	\$1.75	\$15.00	
--------------------------	--------	---------	--

TAXUS MEDIA ANDERSONI. A wide vase-shaped form of Media. Excellent for specimen plants and hedges.

* 4 to 6 in. trans.	\$1.50	\$12.50	\$115.00
* 6 to 8 in. trans.	1.75	15.00	135.00
* 8 to 10 in. trans.	2.00	17.50	160.00
12 to 15 in. B&B	\$1.00	8.50	75.00
15 to 18 in. B&B	1.25	11.00	100.00
18 to 24 in. B&B	1.50	13.50	

TAXUS MEDIA BROWNI. A form of Media of very dense habit and conical in outline; dark green foliage.

* 4 to 6 in. trans.	\$1.50	\$12.50	
--------------------------	--------	---------	--

TAXUS MEDIA HATFIELD. Another Media hybrid. A compact bush of conical shape with upright branches and radially spreading leaves. This form may take the place of the Irish Yew where the latter is not hardy.

* 4 to 6 in. trans.	\$1.50	\$12.50	\$115.00
* 6 to 8 in. trans.	1.75	15.00	
12 to 15 in. B&B	\$1.00	8.50	75.00
15 to 18 in. B&B	1.25	11.00	100.00
18 to 24 in. B&B	1.50	13.50	125.00

TAXUS MEDIA HICKSI (Hick's Yew). A distinctly columnar form with upright branches and radially spread leaves. Another good substitute for the Irish Yew where that variety is not hardy. The demand is strong for this variety—seeing is wanting. Hardy at Boston.

* 4 to 6 in. trans.	\$1.00	\$7.50	\$65.00
* 6 to 8 in. trans.	1.25	10.00	80.00
* 8 to 10 in. trans.	1.50	12.50	115.00
* 10 to 12 in. trans.	1.75	15.00	140.00
* 12 to 15 in. trans.	2.50	20.00	180.00
12 to 15 in. B&B	\$0.60	5.00	45.00
15 to 18 in. B&B85	7.50	60.00
18 to 24 in. B&B	1.10	10.00	90.00
24 to 30 in. B&B	1.50	13.00	
30 to 36 in. B&B	2.00	18.00	

TAXUS HUNNEWELLIANA. A natural cross between the Japanese and Canadian Yews. An intermediate between the parents in habit of growth, in color of foliage and in general appearance. It is perfectly hardy and of elegant form but in the winter the clear green of its foliage is masked by a yellowish-bronze pigment.

* 4 to 6 in. trans.	\$1.50	\$12.50	\$115.00
* 6 to 8 in. trans.	1.75	15.00	
12 to 15 in. B&B	\$1.00	8.50	

TAXUS MEDIA KELSEYI. The first of the new Yews to be propagated from the point of view of its showy red fruit. Fairly slow grower. Dark green, dense needles of the brevifolia type. Upright bush. Begins bearing berries even on small plants. Larger sizes literally infested with the bright red fruits. A real worth-while new plant.

* 4 to 6 in. trans.	\$1.75	\$15.00	
* 6 to 8 in. trans.	2.25	20.00	

TAXUS MEDIA VERMEULEN. Very compact and dense upright grower. Broad base and narrow top. Beautiful pyramid heavily interspersed with red berries.

* 4 to 6 in. trans.	\$1.50	\$12.50	
* 6 to 8 in. trans.	1.75	15.00	
18 to 24 in. B&B	\$1.25	10.00	

NURSERY SHIPPING TAGS

Made from good quality, tough, waterproof stock. Size 3½x6¼ inches. The standard size tag most used by nurseries. There is room for your Inspection Certificate on the address side. Printed to your order at the following prices.

500	1,000	2,000	5,000	10,000
\$3.50	\$5.50	\$10.50	\$24.50	\$45.00

We can also furnish any other size or quality tag at very reasonable prices. Ask for quotations.

	Each	10	100	1000
TAXUS MEDIA WELLESLEYANA. Another form of Media making a dense, broad column; foliage a fine dark lustrous color. Should prove valuable.				
* 4 to 6 in. trans.		\$1.50	\$12.50	
* 6 to 8 in. trans.		1.75	15.00	
12 to 15 in. B&B	\$1.00	8.50		

MORE HATFIELD YEWES

The following varieties were grown from stock purchased from the late T. D. Hatfield. He selected these as being the best of his unnamed varieties and we are still carrying them under his original numbers. No. 18 is one of the most rapid growers of the lot and we believe it will make one of the best for hedges. All of them are good.

The three following varieties belong to the Yew family

CEPHALOTAXUS DRUPACEA (Japanese Plum-Yew). Shrub or small bushy tree rarely to 30 feet tall with wide spreading branches, usually light green; leaves about 1 inch long abruptly pointed, narrow and straight, often upturned; purple fruit about 1 inch long. Hardy in sheltered places as far north as Massachusetts.

* 4 to 6 in. trans.	\$1.00	\$7.50
* 6 to 8 in. trans.	1.25	10.00
* 8 to 10 in. trans.	1.50	12.50
* 10 to 12 in. trans.	1.75	15.00
* 12 to 15 in. trans.	2.00	17.50

CEPHALOTAXUS PENDUNCULATA FASTIGIATA (Harrington Plum-Yew). This plant grows almost exactly like a fine type of the Irish Yew, forming a tall, narrow, compact, dark green column with thick, narrow leaves 2 inches long. Hardy as far north as New York. Very nice.

* 4 to 6 in. trans.	\$1.50	\$12.50	\$110.00
* 6 to 8 in. trans.	1.75	15.00

RED STAR BRAND RAFFIA

Best quality "Red Star" brand. For use in tying plants, wrapping buds, etc. You will like this grade.		
In lots of 5 lbs.	per pound	30c
In lots of 25 lbs.	per pound	25c
In lots of 100 lbs.	per pound	22c

Hardy Perennials

One to four plants of a variety at each rate; five at ten rate; 25 at 100 rate. Please add 20% if your order calls for less than five plants of a variety. No charge for packing.

Most of the stock offered is field grown and one or two years old, except, of course, where noted.

Height specified in description is the ultimate height.

r indicates alpine and rock plants, some of which can also be used in perennial beds and borders. c indicates best cutflower kinds.

Hardy Amaryllis—Magic Lily

We have, at last, a good stock of bulbs of this most interesting plant. Great big husky fellows. At 10 for \$4.00; 100 for \$35.00.

This bulb, also known as *Lycoris Squamigera*, is a native of Japan and one of the most interesting members of the Amaryllis family. It produces attractive green foliage in the spring which disappears in midsummer. About a month later, as if by magic, the flower stock appears, bearing a cluster of 7 to 12 fragrant lily-shaped flowers of delicate lilac-pink, shaded blue. Perfectly hardy in the northern states and may be left in the ground year after year unmolested.

3 "	12.00	10 "	25.00
3 1/2 "	15.00	12 "	50.00
4 "	18.50	14 "	85.00
5 "	34.00	Azalea pots and bulb pans same price.	
5 1/2 "	42.50		
6 "	51.00		

Make More Profit

Sell your Roses, Perennials, Shrubs, Vines and Fruit Trees Started and growing in

Cloverset Plant Pots

THEY ARE CHEAP IN PRICE. They are so cheap that they can be given away with the plant which insures the safe arrival, in first-class condition, of the plant grown in them, to its final destination.

THEY MAKE THE NURSERY BUSINESS AN ALL SUMMER BUSINESS. They permit the nurseryman to extend his selling season from early Spring through the summer and Fall, and to plant Roses and other nursery stock grown in them even in the hottest Summer weather without the least sign of wilt of either the foliage or the blooms.

YOU CAN SELL YOUR PLANTS IN BLOOM. By growing your stock in our pots you may sell it in full foliage and in Full Bloom, when it will command the best price and more profit.

SIZES AND PRICES ON CLOVERSET POTS

No.	Height	Diam. Top	Soil Capacity	Corresponding Size Clay Pot	Per-100	Per 1000
1	6 in.	6 in.	9 lbs.	7 in.	\$4.00	\$37.50
2	9 in.	7 in.	15 lbs.	8 in.	4.50	42.50
3	9 in.	8 in.	20 lbs.	9 in.	5.00	47.50

Cloverset Pots take 3rd Class Freight Rate. Packed 100 in carton

Paper Labels for Typewriter Use

We can furnish a tough paper label, slotted in one end, one half inches wide, 7 inches long, twelve labels to a sheet, cut so they will easily tear apart. Convenient, easy to use and low in price. Price, 1000 for \$1.00, 10,000 for \$7.50, 50,000 for \$27.50. Samples on request.

Collected Lining-Out Nursery Stock

We have arranged to furnish collected stock, for lining-out, from the mountains of North Carolina and Tennessee, of plants that are almost impossible to secure in nursery grown stock. These plants are not nearly as good as are plants grown in nursery beds and transplanted but if you will give them about half shade and water when they need it and mulch with old rotten leaf mould, you should be able to get most of them to live. By doing this you will have a stock of the scarce and always in demand plants that will bring good prices. These plants will be shipped direct from collectors to you thus saving all unnecessary delay.

Native Peat or Wood's Mold

To grow Azaleas and Rhododendrons successfully you must have leaf mold, peat in some form or some similar substance. We have used Russian, German and Holland Peat, leaf mold collected from under trees in our local forests, but by far the best material we have ever used is a form of native peat, a deposit of which we have found near here. It runs from twelve to twenty four inches thick and is composed of thoroughly decayed leaves and other material from hardwood trees which has been generations in the making. We fully recommend this for use in growing stock and to use in a mixture of soil and sand in which to sow seeds but we do not recommend it for use in propagating evergreens and other soft wooded shrubs by cuttings.

If you would like to try it we will send you a two-bushel bag for \$1.00. Will quote special prices on larger lots. Try a sample bag, we believe you will like it so well you will want more.

Shipping Tags

Made from good quality, tough, waterproof stock. Size $3\frac{1}{2} \times 6\frac{1}{4}$ inches. The standard size tag most used by nurseries. There is room for your Inspection Certificate on the address side. Printed to your order at the following prices:

500	1,000	2,000	5,000	10,000
\$3.50	\$5.50	\$10.50	\$24.50	\$45.00

We can also furnish any other size or quality tag at very reasonable prices. Ask for quotations.

Elastic Rubber Bands

Every nursery and florist need Rubber Bands. They save much time around the greenhouse, packing house, shop and office. You will find so many uses for them you will hardly know how to get along without them after you have used them a while. Order a box each of several sizes and see how quickly they pay for themselves in time-saving alone.

Made of factory-fresh, gray colored rubber.
